

Converting .MP3 to .SPS

Swift stole this tutorial from Soundbarrier and made it into a Google doc. Original tutorial at: <https://eatsleepsexdierepeat.blogspot.com/2023/01/sps-to-mp3-nfsmw12.html>

How to convert whatever MP3 you want into SPS files so the game can recognise and play it. Use this tutorial together with [Adding New Songs](#) or just replace some existing songs you don't want.

Stuff you need to download:

<https://drive.google.com/file/d/1LBqbYStbpoYWBiy-LrqHciqZjGL0lwbw/> EALayer3 tool

<https://drive.google.com/file/d/15llvI2D6p1Wt98XbD3M7u53M4h40uKqH/> EA Sound eXchange tool

Extract:

Open `sx_6.00.00.7z`

Go inside the `sx` folder

Extract the contents to `C:\Windows\System32`

Set up:

Open up CMD (Command line) as admin

Select "Yes" if prompted

Once CMD opens up, type the following command:

```
cd <Directory>
```

<Directory> is where your file(s) are stored

Example: `cd C:\Users\hello\Documents\Songs`

Convert:

After the `cd` command, type the following command:

```
sx -sndplayer -fileformatversion1 -ealayer3_int -vbr100 <input> ==<output>
```

<input> is the file you want to convert to .SPS (Supports .WAV and .MP3 only)

<output> is the file it will be named after conversion

Example: `sx -sndplayer -fileformatversion1 -ealayer3_int -vbr100 Song.mp3 ==Songname`

The new .SPS should appear in the same folder opened with the `cd` command

Test:

Make a copy of the .SPS

Open and extract `ealayer3-0.7.0-win32.zip` in the same directory as the file

Drag the converted .SPS file into `ealayer3.exe`

If it works, it should appear as a new file with the same name as the copy of the .SPS

Use:

Convert the .SPS files to .MP3 files located in `Need for Speed(TM) Most Wanted\UI\SONGS` one by one

Listen to each and choose which you want to be removed

Song list

Taken from hrjohn's site <https://hrj.leibur.eu/PUBLIC/UPLOADED/New%20folder/>

ID	SPS filename	Length	Song
89 39 00 00	14729	0:38	NFSHP2010 menu theme
